

# Assembly Instructions

## Traditional Bike Racks

**Step 1:** According to diagram, attach two ends B-1 and B-2 to A.

**Step 2:** Attach tubes C-1, C-2, C-3 and C-4 to A and connect to D-1 and D-2. Use provided hardware to complete the assembly. Tighten all bolts.

**Note:**

Please **DO NOT** over tighten the screws.

Please be aware that the drain holes on D-1 and D-2 should be facing down to the ground.
